

RESOLUTION NO. 2008-109

A RESOLUTION ADOPTING THE TAX BUDGET OF THE GREATER
CLEVELAND REGIONAL TRANSIT AUTHORITY FOR THE FISCAL YEAR
BEGINNING JANUARY 1, 2009 AND SUBMITTING THE SAME TO THE
COUNTY AUDITOR

WHEREAS, a Tax Budget for the Greater Cleveland Regional Transit Authority for the fiscal year beginning January 1, 2009, for the purpose of said Authority during such year and of revenues to be received for such fiscal year, including all taxes, user fees, and other types of revenues, also estimates of all expenditures or outlays in or for the purposes of such fiscal year to be paid or met from the said revenue, and otherwise conforming with the requirements of law, has been prepared; and

WHEREAS, said Tax Budget has been made conveniently available for public inspection for at least ten (10) days by having at least two (2) copies thereof on file in the Office of Management and Budget of this Authority; and

WHEREAS, the Board of Trustees has held a public hearing on July 1, 2008 on said budget, of which public notice was given by publication in the Plain Dealer on June 10, 2008.

NOW, THEREFORE, BE IT RESOLVED by the Board of Trustees of the Greater Cleveland Regional Transit Authority, Cuyahoga County, Ohio:

Section 1: That the Tax Budget of the Greater Cleveland Regional Transit Authority, for the fiscal year beginning January 1, 2009, heretofore prepared and submitted to this Board of Trustees, copies of which have been and are on file in the Office of Management and Budget with any revisions to said tentative budget which are incorporated therein and which are hereby approved, is hereby adopted as the official Tax Budget of said Authority for the fiscal year beginning January 1, 2009.

Section 2: That the Executive Director of the Office of Management and Budget is hereby authorized and directed to have certified a copy of said budget and a copy of this resolution and to transmit the same to the Auditor of Cuyahoga County, Ohio.

Section 3: That this resolution shall become effective immediately upon its adoption.

2009 TAX BUDGET ASSUMPTIONS

TAX BUDGET FUND BALANCE ANALYSIS

Introduction

The 2009 Tax Budget is presented differently from previous years. This year's presentation will illustrate four revenue and expense scenarios, all of which indicate that the underperformance of sales tax revenue in tandem with the unprecedented increase in the cost of diesel fuel has created a critical financial situation for the Authority. The 2009 Budget year will require a combination of fuel surcharges, service and staffing reductions, and other expenditure reductions in order to create a balanced budget with a solid ending balance. Moreover, should regional economic conditions depress sales tax performance lower than the minimal projected increases, even more reductions or additional revenue streams will be required.

Table 1, on the next page, presents the General Fund Balance analysis related to the four financial scenarios. The numbers in bold are those that change in the various scenarios. As can be easily seen, the ending balance in all cases is negative, representing an unacceptable 2009 appropriation. The analysis below presents a bleak financial picture and though the current financial situation is not one that the Authority has created, it is the reality we face. Management is working diligently to forestall those issues that can be addressed. However, the financial foundation of the Authority will be severely challenged without additional operating support, larger fuel surcharges, and/or more drastic staffing/service cuts.

The Scenarios

- Scenario #1: Do nothing. Assumes no service or staffing reductions.
- Scenario #2: Assumes \$0.25 fuel surcharge on current base fare, implemented in October 2008 and a 2.5% reduction in the salaried labor payroll.
- Scenario #3: Assumes Scenario #2 plus a 3.0% service reduction.
- Scenario #4: Assumes Scenario #3 plus an additional \$0.25 (\$0.50 total) fuel surcharge on current 2008 base fare, implemented in October 2008.

Beginning Balance

The beginning balance for each year/scenario is intended to represent unrestricted cash and investments.

Revenues

Introduction

The revenue picture for the Authority presents tremendous concern. The current 2008 Estimate projects \$263.4M in General Fund revenue and total resources of \$277.4M. As a result of unprecedented fuel cost increases, GCRTA will utilize the 2008 fund balance to cover expenditures that have outpaced revenue. This will result in a 2009 beginning balance that is \$9.4M lower than 2008.

Table 2, shown below, presents the variation in the four revenue scenarios, which highlight that sales tax revenue is fixed and expected to show minimal growth; reimbursed expenditures are expected to decrease as the force account labor associated with the Euclid Corridor Transportation Project (ECTP) is finalized; and that passenger fares is the only source of revenue that can be adjusted to alter the 2009 revenue picture. Moreover, Table 2 indicates that Scenario #1 – (Do Nothing), will result in \$360K less current revenue than 2008 and \$9.8M less total resources. The revenue increase from Scenario #1 to Scenario #4 – (\$0.50 Fuel Surcharge) is \$8.6M. However, even Scenario #4 will result in a negative ending balance (see Table 1). Therefore, in order to present a balanced budget, with a healthy ending balance, the Authority will need to consider a higher fuel surcharge and/or more drastic service cuts.

Sales Tax Revenue**Assumptions**

**2008 Est. \$172.0M / 0.2% Inc.
2009 Proj. \$173.2M / 0.7% Inc.**

Rationale:

Through June 2008, sales tax receipts registered 2.3% above 2007 and 0.6% above budget. The 2008 YTD receipts were aided by a large single payment in March, by a major delinquent taxpayer. The current RTA projection anticipates a gradual erosion of the sales tax gains during the second half of the year. Retail sales reports from the first six months suggest that consumer spending was lower than previous expectations. The most recent Federal Reserve's Beige Book for the Fourth District, reports that regional retail sales are flat to declining. Auto dealers also report sluggish sales. Moreover, requests for home equity loans are on the decline and the residential mortgage market is extremely depressed. As a result, RTA projects only a 0.2% increase in 2008 Sales Tax receipts in comparison to 2007.

The 2009 Tax Budget, projects a minimal increase of 0.7% above the 2008 estimate. The combination of high fuel and utility prices, falling housing values, home foreclosures, and declining payrolls are expected to continue to constrain consumer spending. Furthermore, trends in county population loss continue to exert negative pressure on the County's economic base. The Northeast Ohio economic fundamentals indicate minimal growth in sales tax receipts for the near future.

Reimbursed Expenditures**Assumptions**

Capitalized Operating Assistance	\$28.7M
Fuel Tax Reimbursement	\$1.5M
Force Account Labor & Material	\$4.2M
Total	\$34.4M

Rationale:

The Reimbursed Expenditures category is composed of capitalized operating assistance, fuel tax reimbursements, and grant labor and material reimbursements. In 2008, this category will amount to \$36.0 million in revenue. The 2009 estimate for this source is \$1.6 million lower than 2008 due to the completion of the Euclid Corridor Transportation Project, which had been the largest grant labor reimbursement project. The 2009 estimate will include a full year of reimbursement for the Heavy Rail Vehicle Rehabilitation Project.

<u>Advertising Revenue</u>	<u>Assumptions</u>
Advertising Contract	\$925K
Healthline (net)	\$175K
<u>Other</u>	<u>\$125K</u>
Total	\$1.2M

Rationale:

Advertising revenue is composed of three subcategories. The first subcategory is the current advertising contract. Due to recent fleet reductions, the advertising contract's annual guarantee was lowered from \$1,000,000 to \$925,000 per year. The second subcategory is the Healthline naming rights contract that will net the Authority \$175,000 in 2009. The other subcategory is composed of various concession and vending arrangements and is expected to generate \$125,000 in the upcoming year.

<u>Interest Income</u>	<u>Assumption</u>
	\$391K

Rationale:

The 2009 General Fund balance is projected to average nearly \$13.1 million. The 2009 interest rate on investments is projected to range from 2.25% to 3.75%. As a result of lower fund balances and lower investment rates, the 2009 revenue from this source is projected at \$390,655. This is a decrease of slightly more than \$260,000 when compared to the 2008 estimate.

have equally affected GCRTA. Since January 2008, RTA's average monthly diesel prices have increased 46%, where the daily purchase price has ranged from a low of \$2.55 per gallon to a high of \$4.17 per gallon. The price per gallon in May and June averaged \$3.86 and \$3.88 respectively and ranged from \$3.46 per gallon on May 1st to a peak of \$4.18 per gallon on May 23rd.

For 2008, diesel fuel was budgeted at \$2.70 per gallon, which represented a 30% increase above the 2007 price; however, current estimates project an average 2008 diesel price of nearly \$3.72 per gallon. This will represent a 38% increase in the actual diesel cost per gallon vs. the budgeted amount and will result in diesel fuel costs that are \$5.0 million over budget.

Projections for the remainder of 2008 show slight relief in the fourth quarter as compared to the summer driving season. However, the price of diesel fuel is not expected to retreat much from current levels. The US Department of Energy reports that diesel fuel demand remains strong, particularly in emerging markets; therefore reducing the likelihood of a price decrease due to lower aggregate demand. As such, RTA projects diesel costs to average \$4.10 for 2009. The total cost of diesel varies between the scenarios due to the projected change in service levels.

Other Expenditures

Assumptions

- Scenario 1: \$50.4M / 4.1% Inc.**
- Scenario 2: \$50.4M / 4.1% Inc.**
- Scenario 3: \$50.1M / 3.5% Inc.**
- Scenario 4: \$50.1M / 3.5% Inc.**

Rationale:

Other Expenditures include costs for services, material and supplies, CNG fuel and utilities, liabilities & damages, purchased transportation, miscellaneous expenses and leases & rentals. The 2009 estimate for other expenditures shows a 4.1% increase for Scenarios #1 and #2 and a 3.5% increase for Scenarios #3 and #4. The variations are due to reduced expenditures related to the different service level assumptions. Utility costs are projected to increase by five percent while most other costs show slight inflationary increases. This does not include transfers to other funds, which are shown below.

FINANCIAL INDICATORS

The General Fund statements presented in this Tax Budget results in the following performance against the Authority's financial policy goals. Detailed Fund Statements and the corresponding financial indicators for each scenario are presented in the Appendix section.

REVENUES

Operating Ratio: The Board policy requires a 25.0% operating ratio when comparing operating revenues to total operating expenditures. The Tax Budget scenarios yield the following Operation Ratios:

- Scenario #1: 19.7%
- Scenario #2: 21.3%
- Scenario #3: 21.6%
- Scenario #4: 23.5%

In all cases, the indicator fails to meet the policy goal as a result of weak operating revenue relative to total operating expenditures. The projected revenue from the fuel surcharge helps the indicator, but even the most aggressive scenario cannot create a ratio that meets the goal.

Fare Subsidy (Net Cost) Per Passenger: The Board policy sets a goal for the fare subsidy per passenger to be no more than three times the average fare. The Tax Budget scenarios yield the following:

- | | |
|-----------------------|----------------------|
| • Scenario #1: \$3.62 | Average Fare: \$0.86 |
| • Scenario #2: \$3.65 | Average Fare: \$0.95 |
| • Scenario #3: \$3.59 | Average Fare: \$0.95 |
| • Scenario #4: \$3.54 | Average Fare: \$1.05 |

In each case, the indicator fails to meet the policy goal. This further illustrates that self-generated revenues are not growing at the same rate as expenditures. Scenarios #2 - #4 represent improvement above the 2008 estimate due to projected increases in fare revenue from the fuel surcharges.

EXPENDITURES

Operating Reserve: The Board policy sets a goal of a one-month operating reserve (indicator = 1.0). The Tax Budget scenarios yield the following:

- Scenario #1: -0.9 months
- Scenario #2: -0.7 months
- Scenario #3: -0.6 months
- Scenario #4: -0.4 months

In each case the indicator fails to meet the policy goal and is unacceptable for the 2009 appropriation.

CAPITAL OUTLAY

Sales Tax Contribution to Capital: This Board policy requires that a minimum of 10.0% and a maximum of 15.0% of sales tax receipts be applied to the Authority's capital programs. The 2009 contribution to capital funds is planned at \$24.8 million. This represents a 14.3% contribution level, which meets the policy level.

Capital Maintenance to Expansion: At an expected 92.5% in 2009, this ratio remains well outside of the Board policy guidelines of 33% to 67%. This is the result of a continued increase in the number of maintenance projects relative to expansion projects in 2009.

CAPITAL IMPROVEMENT FUNDS

The majority of Capital Improvement projects are funded through Federal and State Grants. Funds needed to meet the local share requirements of Federal and other grants, as well as, funds needed for locally funded capital projects, are provided through the retention of investment earnings and contributions from sales tax proceeds as well as debt sales.

The 2008 and 2009 estimated capital outlays are predicated on year-to-date outlays, current obligations and projected commitments, as well as the approved five-year Capital Improvement Plan. Projected grant revenue includes current, as well as, expected grant awards. In 2009, maintenance projects include various facilities maintenance projects and track, bridge and station rehabilitations. Major equipment expenditures include the purchase of buses and the overhaul of both the Heavy and Light Rail vehicle fleets. The expansion projects include the completion of the Euclid Corridor Transportation Project, continued work on three Intermodal Stations along Euclid Avenue, and preliminary work on three Transit Center projects.

BOND RETIREMENT FUND

The General and Capital Funds will be the sources of fund transfers necessary to make scheduled interest and principal payments of \$18.1 million on the \$176.5 million in current outstanding debt remaining at the end of 2008. The last series of existing long-term debt for GCRTA will expire in 2027.

INSURANCE FUND

The Insurance Fund is structured to reflect a combination of self and purchased insurance coverage. Activities expected in 2009 includes premium outlays totaling \$1.5 million and an expected claims payout of \$1.0 million. Maintaining the \$5.0 million balance is again recommended by the GCRTA Risk Management Department for 2009. This is accomplished with a \$2.3 million transfer from the General Fund.

GENERAL FUND ECONOMIC ASSUMPTIONS

<u>Inflation Indicators</u>	<u>Assumptions</u>
Overall Inflation	2008: 3.1% to 3.4% 2009: 1.9% to 2.3% 2010: 1.8% to 2.0%
Core Inflation	2008: 2.2% to 2.4% 2009: 1.9% to 2.1% 2010: 1.7% to 1.9%

Rationale:

According to economic analyses including sources such as the Federal Reserve Bank (Fed) and the Bureau of Labor Statistics, the price index for overall personal consumption expenditures (PCE) increased by 0.2 % in April and was up 3.2% for the preceding twelve months. The sustained increases in commodity prices for items related to oil, corn, and wheat have increased current and near-term inflation expectations. The Fed expects overall inflation to moderate through year-end 2008 as commodity prices level out or recede. The Federal Open Market Committee (FOMC) projects 2008 overall inflation to range between 3.1% and 3.4%.

The reading on core inflation, which excludes food and energy prices, has improved throughout 2008. Core inflation through April 2008 has ranged from 1.9% to 2.1%, over the corresponding preceding twelve months. There is slight upward pressure related to price increases for goods affected by higher energy and commodity prices. However, the Fed expects core inflation to remain relatively stable and range between 2.2% and 2.4% for 2008.

Looking forward, the Fed projects inflationary pressures to subside in 2009 as a result of the leveling off of oil prices and other commodities as well as the effects of economic slack in absorbing price increases. For 2009, overall inflation is projected to range from 1.9% to 2.3%, while core inflation is expected to range from 1.9% to 2.1%. Although projections suggest an easing of inflation pressures, the Fed still reports that it will be actively monitoring any changes in order to ensure price stability for the market.

Greater Cleveland Regional Transit Authority
STAFF SUMMARY AND COMMENTS

TITLE/DESCRIPTION:	Resolution No.: 2008-109
A RESOLUTION ADOPTING THE TAX BUDGET OF THE GREATER CLEVELAND REGIONAL TRANSIT AUTHORITY FOR THE FISCAL YEAR BEGINNING JANUARY 1, 2009 AND SUBMITTING THE SAME TO THE COUNTY AUDITOR	Date: July 10, 2008
	Initiator: OMB
ACTION REQUEST: <input checked="" type="checkbox"/> Approval <input type="checkbox"/> Review/Comment <input type="checkbox"/> Information Only <input type="checkbox"/> Other _____	

- 1.0 PURPOSE/SCOPE: This action will allow the Authority to adopt the Tax Budget of the GCRTA for the fiscal year beginning January 1, 2009 and submit the same to the County Auditor.
- 2.0 DESCRIPTION/JUSTIFICATION: This action is taken as a matter of recommended policy for reasons cited below in part 8.0.
- 3.0 PROCUREMENT BACKGROUND: Does not apply.
- 4.0 DBE/AFFIRMATIVE ACTION BACKGROUND: Does not apply.
- 5.0 POLICY IMPACT: Although the GCRTA is not legally required to prepare a Tax Budget, it is done as a measure of sound fiscal policy. To not adopt the Tax Budget would demonstrate a lower level of financial responsibility.
- 6.0 ECONOMIC IMPACT: This establishes the estimates of revenue for the year and defines in very broad terms the limits of expenditures anticipated.
- 7.0 ALTERNATIVES: Do not adopt and file the 2009 Tax Budget as chosen by the Finance Committee.
- 8.0 RECOMMENDATION: It is recommended that Scenario #4 within the 2009 Tax Budget be adopted and filed for several reasons. The Board of Trustee's Finance Committee at its July 1st, 2008 meeting approved this Scenario, the report demonstrates timely budgeting and appropriation procedures, and it is an element of fiscal responsibility that may bolster the Authority's credit rating. It also fosters communication and is a good preliminary budget exercise. Based on the Scenario #4 recommendation, public hearings for service reductions and a fuel surcharge will be scheduled for the first week in August.
