ENVIRONMENTAL POLICY STATEMENT AND COMMITMENT

The following environmental policy statement and commitments were developed to evolve best practices on environmental and sustainability management at the GCRTA:

GCRTA is committed to protecting the environment as it provides public transit services to northeast Ohio. We will utilize sound business practices that measure and improve our environmental performance through a formal Environmental and Sustainability Management System (ESMS). The ESMS will be integrated throughout the Authority to create a healthier and more livable environment for the staff, customers and the community we serve. GCRTA will make the following environmental commitments:

- Communicate and advance the use of environmental practices and strategic frameworks throughout GCRTA.
- Comply with all applicable local, state, federal, and other environmental laws, regulations, standards and monitoring requirements.
- Make environmental concerns an integral part of planning and decision-making processes and implement effective environmental programs.
- Prevention of pollution and conservation of resources by reducing waste, creating better disposal options, recycling, and procuring new and better products and technologies.
- Establish an ESMS that will be documented, implemented, and maintained.
- Commit to continual improvement by reviewing GCRTA's ESMS performance at appropriate intervals to ensure that established objectives, targets, and programs are met.
- Engage and empower the workforce and community through effectively communicating GCRTA's Environmental Policy Statement and Commitment.

This Policy applies to all employees, departments and functions throughout the Authority. Full participation by all staff is required in order to meet the commitments set forth in this policy. This Policy will be communicated to all persons, including contractors and vendors, working for or on behalf of GCRTA.

1.0 PURPOSE/SCOPE: This action will allow the Authority to be fully compliant with the ISO 14001 Standard 4.2 Environmental Policy and is being done in conjunction with the Board's annual review of the Policy.

2.0 DESCRIPTION/JUSTIFICATION: The adoption of the environmental policy statement and commitment by Resolution No. 2013-108 was the first step in achieving ISO 14001 Certification. The policy is being revised slightly to fully meet the requirements of the ISO 14001 Standard and provides the framework for the development of a formal environmental and sustainability management system.

The Board of Trustees is committed to protecting the environment as it provides public transit services throughout the County to create a healthier and livable experience for our customers and the community we service. The Board of Trustees also supports this vision to develop an environmental policy statement and commitment to promote environmental performance through a formal environmental and sustainable management system.

3.0 PROCUREMENT BACKGROUND: Does not apply.

4.0 AFFIRMATIVE ACTION / DBE BACKGROUND: Does not apply.

5.0 POLICY IMPACT: This action will revise the Policy to be consistent with the ISO 14001 Standard.

6.0 ECONOMIC IMPACT: Long-term cost savings and emission reductions from energy, water, fuel, and facility maintenance will be achieved through environmentally sustainable practices.

7.0 ALTERNATIVES: Without the revision to the policy the RTA will not be able to achieve ISO 14001 Certification.

- 8.0 RECOMMENDATION: The revision to the Environmental Policy Statement and Commitment will be discussed at the October 21, 2014 Planning and Development Committee meeting with the staff requesting approval for action by the full Board. It is recommended that the resolution for Revising the Environmental Policy Statement and Commitment be approved by the full Board.
