TITLE/DESCRIPTION: CONTRACT: PROJECT 16.41 - ON-CALL RAIL ENGINEERING SERVICES VENDOR: TRANSYSTEMS CORPORATION OF OHIO AMOUNT: \$400,000 FOR 24 MONTH PERIOD	Resolution No.: 2015-93
	Date: October 15, 2015
	Initiator: Engineering & Project Development
ACTION REQUEST: <input checked="" type="checkbox"/> Approval <input type="checkbox"/> Review/Comment <input type="checkbox"/> Information Only <input type="checkbox"/> Other _____	

- 1.0 **PURPOSE/SCOPE:** This action will allow the Authority to enter into a contract for On-Rail Engineering Services for a period of 24 months.

- 2.0 **DESCRIPTION/JUSTIFICATION:** The Authority requires rail engineering services to prepare plans, specifications, cost estimates, construction duration estimates, construction support services and discrete engineering analyses for projects assigned by GCRTA's Engineering Project Manager. These projects will involve some, or all, of the following engineering design efforts: track, overhead catenary, signals and fiber optic communication systems. Projects could involve any of the Greater Cleveland Regional Transit Authority (GCRTA) rail lines, electrical substations or yards. Projects would principally involve repair and/or updating of various aspects of the rail line.

- 3.0 **PROCUREMENT BACKGROUND:** The Request for Proposal (RFP) was posted on the GCRTA Procurement web site and advertised in the local newspapers. These services were solicited through a competitive negotiated procurement, utilizing the Brooks Act Procedures. Under this process, the Authority's evaluation panel first selects the most technically qualified firm, solicits a pricing proposal from that firm, and negotiates only with that firm. Should the Authority determine that an agreement could not be reached with the most qualified firm, it may reject that proposal and repeat the process with the next most qualified firm. In this instance, negotiations were held with the first ranked firm and an acceptable price was reached.

TranSystems Corporation of Ohio has successfully completed projects for the Authority, Central Ohio Transit Authority, Stark Area Regional Transit Authority, and Ohio Department of Transportation and City of Chicago DOT, among others.

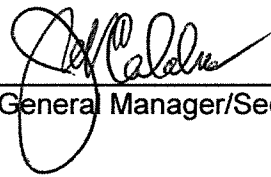

- 4.0 **AFFIRMATIVE ACTION/DBE BACKGROUND:** All Affirmative Action requirements have been met. A 19% DBE goal was established for this procurement. TranSystems Corporation of Ohio has committed to meeting the DBE goal through the utilization of KS Associates, (Female-owned) Denise's Flagging and Construction (Female-owned), and Somat Engineering of Ohio (Asian Indian) in a total amount of \$76,000.00. The amount will be assigned to individual DBE companies according to the specific type of work requested by GCRTA under the contract.

- 5.0 **POLICY IMPACT:** Does not apply.

- 6.0 **ECONOMIC IMPACT:** This contract shall be payable from the RTA Capital and/or RTA Development Funds, Engineering & Project Development Department budget, including but not limited to, 100% Local funds and future Capital Grant funds to be determined, in an amount not to exceed \$400,000.00 for a period of 24 months. This is the budgeted amount for this project.

- 7.0 ALTERNATIVES: Reject this offer. Rejection of this offer will create undue hardship on GCRTA's Engineering Department due to their existing workload as well as the need for technical expertise outside of their knowledge base.
- 8.0 RECOMMENDATION: This procurement was discussed by the Planning and Development Committee at the October 13, 2015 meeting. It is recommended that the offer of TranSystems Corporation of Ohio be accepted and the resolution passed authorizing the General Manager/Secretary-Treasurer to enter into a contract.
- 9.0 ATTACHMENTS: None.

Recommended and certified as appropriate to the availability of funds, legal form and conformance with the Procurement requirements.
